**KIMPEX**

Kimpex is committed to offering the best track kit line-up in the industry and to prove it, we are proud to present the NEW TREX 3.0X. Built with the same quality proven frame as the TREX 2.0 but with WINTER TRACTION.

The TREX 3.0X is equipped with four-season traction, developed for maximum performance in snow conditions. This changes everything! You now have the best four-season kit available on the market, plus it has a high quality steel frame without slides for summer riding and paddle type design tracks for superior winter performance.
